

## **Wyplay, the TV experts, have been selected by a major South American Tier-1 Operator to deploy a next generation hybrid Android TV 4K-DVR solution**

- Hybrid Satellite and OTT Android TV
- Powered by Wyplay “FROG” middleware
- Enriched with value added Wyplay software back-end components

**Marseille – October 29, 2019** –Wyplay, a global TV Professional Services and Video Platform Solutions provider, has been selected by a major South American Tier-1 Operator for their next generation hybrid Android TV 4K-DVR set-top box platform. Wyplay will provide the iconic “FROG” middleware to address all broadcasting standards and to support the conditional access system. Additional Wyplay back-end components will be delivered to enrich the operator’s solution.

The Wyplay Middleware has already been deployed on more than (10) millions set top boxes worldwide. The Wyplay TV stack solution ported and integrated with Android TV and designed as a separate APK, enables flexible and independent updates. The Wyplay Middleware will support DVB-S standards as well as advanced Conditional Access use cases in compliance with the operator specificities. In addition, Wyplay will deploy an Application Manager and Analytics back-end solution to easily manage client side applications and monitor their deployments.

The Wyplay Professional Services team will customize, integrate and validate these software components with the operator back-end and all the third parties companies involved in this project.

“Wyplay is recognized for its award winning deployments for the most demanding TV operators and we are really proud to have been selected by this major Tier-1 operator” said Jacques Bourgninaud, CEO of Wyplay. “The project is complex and includes legacy operator technology components with multiple partners and a lot of specificities. Our TV experts are already on board to deliver this brand new hybrid Android TV solution rapidly”.

### **About Wyplay**

An independent, internationally recognized company, Wyplay make Operator’s Video Solution Transformation Successful. For more than 10 years, Wyplay has helped its Tier1 customers to unlock their business and reach their highest potential thanks to a wide range of Video Platform Solutions, Consulting and Integration Services. We tailor video solutions and manage AndroidTV, RDK, Linux STB and mobile devices, Legacy upgrades and OTT platforms. Wyplay's professional service team creates user experiences that perfectly match and complement the product and market strategies of an operator or broadcaster. Wyplay is now a strategic partner of leading operators such as AT&T DirecTV, Canal +, DishTV, Proximus, SFR, Sky Italia and Telefonica.
