

## ENGEL AND WYPLAY PARTNER FOR NEXT GENERATION CONNECTED HD STB

Amsterdam, September 9, 2009. Engel and Wyplay have entered into a formal relationship to provide next generation connected HD STBs. Engel addresses the highly-competitive European market with a complete range of Set-top box solutions and is the leader of STB sales in the Spanish market.

These next generation products will have the richest functionality available in the market and include such features as Digital TV reception with integrated PVR, Electronic Programming Guide, premium VOD, web video, web radio, in-home media sharing, and a build-in full-HD multimedia player.

In addition to its impressive feature set, the companies have created a highly intuitive user experience that will greatly appeal to the general public.

At the heart of these products is the signature Wyplay Modular Solutions (WMS) - the same TV-centric software that powers some of the leading brands in consumer electronics and IPTV today.

“The relationship with Wyplay is consistent with Engel’s goal of providing our customers with leading and proven TV-centric products in a cost effective manner” said Joan Montané, Engel CEO.

“Engel is experienced and successful at designing feature-rich products to a broad audience” said Jacques Bourgninaud, Wyplay CEO. “We are delighted to have been selected by Engel for this next generation Connected HD STB collaboration”.

### **ABOUT WYPLAY**

Wyplay’s TV-centric software solutions power the world’s most popular operator and consumer electronic brand names.

Independent, Europe-based, and internationally recognized, Wyplay provides state-of-the-art solutions for Connected-HDTVs, Media Center CE devices, HD IPTV boxes, DVB-S/C/T HD STBs, and in-home media-HDD products.

At the very heart of Wyplay’s offering is the Wyplay Modular Solutions (WMS), an embedded, robust, and full-featured HD software platform that provides the most complete range of functionality available in the market. WMS delivers unsurpassed connectivity and media playability. In addition to WMS’s impressive technical and performance pedigree, Wyplay provides an elegant and intuitive 2D & 3D user interface that greatly contributes to the quality of experience for the most demanding customer.

**ABOUT ENGEL**

With more than 20 years of experience, ENGEL is one of the strongest Satellite and MATV manufacturers for the Spanish and the European markets. ENGEL addresses this competitive market with a complete range of Set-top box solutions and has established itself as the STB sales leader in the Spanish market. ENGEL has strong international export growth including dealers in most of the European, Asia, Australia and Middle East countries

ENGEL covers a complete and broad range of specialized products for digital terrestrial and satellite television reception. It stands out from the crowd in terms of image and product quality in individual and community signal reception.

ENGEL has 2 main product lines:

One aimed at professionals, with its own design and production, including terrestrial antennas & satellite dishes, digital head-ends, QPSK/OFDM receivers, modulators & transmodulators, RF converters, wideband & monochannel amplifiers, RF/IF distribution accessories, splitters, TV outlets and coax cable.

The second product line targets the mass consumer market and markets products that include digital satellite and terrestrial receivers with media player solutions, DTT antennas, remote control extenders, audio and video transmitters, parabolic antenna kits, plasma & LCD supports, HDMI & AV accessories etc.
