Wyplay integrated Netflix and Disney+ to Canal+ 4K TV decoders

MARSEILLE, FRANCE – DECEMBER 1, 2020 – Wyplay - a global TV Professional Services and Video Platform Solutions provider - integrated OTT streaming applications Netflix and Disney+ on the 4K TV decoders of Canal+ - a market leading pay-TV provider.

Netflix and Disney+ were launched on Canal+ decoders in 2019 Q4 and 2020 Q2 respectively. Canal+ subscribers can now access a unique offering of films, TV series, and documentaries. This project aligns perfectly in the Canal+ strategy of becoming the go-to brand for the world's best content and services.

Wyplay has collaborated with the Canal+ Group for more than seven years. Involved on multiple projects from legacy software upgrades, to new software services deployments, Wyplay acts as a system integrator bringing vertical TV expertise on multiple domains such as application/browser integration, security adaptation, system optimization and certifications.

We are extremely proud to act as a trusted technical third party advisor for the Canal+ Group” said **Jacques Bourginaud**, CEO of Wyplay. He added “Multiple partners have been involved including the OTT App, the CAS/DRM security and the chipset providers. The Wyplay mission was to ensure that the integration process will deliver the required fast performances and meet the mandatory deadlines. We are pleased to have rapidly delivered Netflix and Disney+ applications for Canal+.”

ABOUT WYPLAY

An independent, internationally recognized company with more than 15 years of experience, Wyplay makes operator’s video solution transformations successful. Wyplay has helped Tier 1 operators to unlock their businesses and to reach their highest potential thanks to a wide range of Video Platform Solutions and Professional Services.
